Keys to Symbols

– = Allergen is not part of the ingredient when delivered by the supplier.

Y = in a column entitled 'allergen(s) (e.g. gluten) present' indicates that the product contains that allergen & is, therefore, not suitable for you if you suffer from this allergy.

C = Allergen is present in the manufacturing site/factory/supply chain & our suppliers believe there is a significant risk that this allergen could cross-contaminate the food.

'Yes' /'No' in the column entitled 'suitable for vegans'/'suitable for vegetarians' details information supplied by the product manufacturer. Our kitchens have limited space and as such we cannot always preserve the vegetarian status of a meal.

Notes

Gluten is a protein component of wheat, rye, barley & oats. If you are intolerant to gluten then please consult the 'gluten present' column.

The Treenut column indicates the presence of the following; almonds, brazils, cashews, hazelnuts, macadamias, pecans, pistachios, walnuts & their respective derivatives.

NB: We have taken all reasonable steps to ensure that this table is accurate. However, we cannot guarantee that the product is '100% free from' that component because of the risk of unexpected cros s-contamination. Your statutory rights are not affected.
